

Leader Election

- What is the worst case turnaround time for the ring leader election algorithm? (# of message transmissions)
 - A: N
 - B: $2N$
 - C: $3N$
 - D: $3N-1$

Leader Election

- Ring-based algorithm guarantees:
 - A: Safety
 - B: Liveness
 - C: Both
 - D: Neither

Leader Election

- What is the worst-case message complexity of the Bully algorithm?
 - A: $O(1)$
 - B: $O(\sqrt{N})$
 - C: $O(N)$
 - D: $O(N \log N)$
 - E: $O(N^2)$
